

**Summary Report for Individual Task**  
**052-250-0025**  
**Integrate Environmental Protection into Military Operations**  
**Status: Approved**

---

**Distribution Restriction:** Approved for public release; distribution is unlimited.

**Destruction Notice:** None

**Foreign Disclosure: FD5** - This product/publication has been reviewed by the product developers in coordination with the Fort Leonard Wood foreign disclosure authority. This product is releasable to students from all requesting foreign countries without restrictions.

**Condition:** The unit is responsible incorporating environmental protection measures into military operations.

**Standard:** Integrate environmental protection measures into military operations. Correctly identify all performance measures to receive a GO.

**Special Condition:** None

**Safety Risk:** Low

**MOPP 4:**

Task Statements
-----------------

**Cue:** None

**DANGER**

None

**WARNING**

None

**CAUTION**

None

**Remarks:** None

**Notes:** All required references and technical manuals will be provided by the local command. The attached website link: <http://www.apd.army.mil/> will provide access to FM 3-34.5, ADP 5-0, FM 6-0 and JP 3-34.

## Performance Steps

### 1. Identify environmental sustainability programs.

- a. Deconstruction.
- b. Renewable energy.
- c. Water conservation.
- d. Waste to energy systems.
- e. Green procurement.
- f. Installation Training Area Management (ITAM).
- g. Protect human health.
- h. Reduce logistical trails.
- i. Reduce liability.

### 2. Establish reduce, reuse, recycle program.

a. Material examples - rechargeable batteries, solar water heating systems, smart washer and non hazardous cleaning solvents.

b. Non material examples - waste reduction, integrated waste management, reduce energy consumption and command emphasis is crucial.

### 3. Develop segregation points for waste.

### 4. Identify burnpit and landfill characteristics.

### 5. Identify solid waste characteristics, rules and regulations.

### 6. Identify environmental laws and regulations.

### 7. Prepare an Environmental Appendix 6 to Engineer Annex G of an operation order.

(Asterisks indicates a leader performance step.)

**Evaluation Guidance:** Score the Soldier a GO if all performance measures are passed. Score the Soldier a NO GO if any performance measure is failed. If the Soldier scores a NO GO, retrain and retest.

**Evaluation Preparation:** Test this task in conjunction with other pre-deployment/field training measure testing. Ensure that access to applicable regulations are available.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Identified environmental sustainability programs.			
2. Established reduce, reuse, recycle program.			
3. Developed segregation points for waste.			
4. Identified burnpit and landfill characteristics.			
5. Identified solid waste characteristics, rules and regulations.			
6. Identified environmental laws and regulations.			
7. Prepared an Environmental Appendix 6 to Engineer Annex G of an operation order.			

**Supporting Reference(s):**

Step Number	Reference ID	Reference Name	Required	Primary
	ADP 5-0	The Operations Process	No	No
	FM 3-34.5	Environmental Considerations	No	No
	FM 6-0	COMMANDER AND STAFF ORGANIZATION AND OPERATIONS	No	No

**Environment:** Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT.

**Safety:** In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination.
